CATALOGUE

## Welcome to the International Database for Printed Music and Musical Products!

You work in information services and have always wanted a computer-based sheet music catalogue?  
You also attach great importance to data quality and powerful search functions?

The IDNV is what you are looking for!

The IDNV is an exceptional search tool, which was initiated by the DMV, "Deutscher Musik-Verleger Verband e.V." (the German Music Publishers Association) and the GDM "Gesamtverband Deutscher Musikfachgeschäfte e.V." (the German Music Retailers Association). The IDNV groups many important music publishers' catalogues in one complete and up-to-date database. The high powered search functions enable to search according to many criteria at once - this means the IDNV can help get round complex and time-consuming search processes and therefore help save time in daily work. The clear configuration of the programme means it is easy to use and fulfills the most complex demands.

The IDNV is a high-grade tool for your internal library duties and also for providing library visitors with immediate and specialised information:

- The database contains over 400 000 items and more than 250 000 single titles.
- The IDNV helps to give precise responses to visitors' enquiries: multi-criteria searches according to publisher, composer, work, title, instruments, product type (study material, scores etc.), ISMN and much more...!
- The notepad function enables you to compile and print lists of items for library acquisition.
- Reliability and up-to-dateness: The secure data exchange system enables the data to be updated online at anytime.

The IDNV Catalogue software is available in a German, English or French version. The new edition (from 1.07.06) is available by subscription (single-user licence) for 228 € / year excl. VAT. (Multi-user licence optional, offer available on request).

To obtain more information and the order form, please visit our website [www.idnv.net/order-online/](http://www.idnv.net/order-online/) or please fax us your details and will send you further information.€
